HOTEL PROJECTS

www.horecatr.com.tr

"Are you opening a hotel? Starting from scratch? Missing something? No panic!"

We take care of every step, from the interior design and equipment of a hotel under construction to the permits and the grand opening. All you have to do is welcome the guests on opening day!

With our professional interior design team, creative drawing group, and experienced on-site staff, we are here for you. We could say we know your hotel better than you do. All legal permits, procedures, and licensing matters are also our responsibility; now you can spend your time on other things instead of paperwork

If you're saying, 'My hotel is ready, but the furnishings are missing,' don't worry about it. We complete whatever is missing with carefully selected products that suit your hotel.

In short, you imagine it, and we bring your hotel to completion, right down to the ribbon. Everything will be ready before your coffee cools down!"

WHAT IS A HOTEL FEASIBILITY STUDY?

The purpose of conducting a hotel feasibility study is to create a comprehensive and data-driven set of recommendations.

PROJECT SCALE

This review of the land, buildings, and site structure includes the connection to local public utilities (electricity, water, and sewage)...

BEFORE & AFTER

Determining the economic viability and sustainability of a major project such as a hotel or resort requires local market knowledge and significant experience.

EXPERIENCED STAFF

Adopting the feasibility process will provide valuable insight into how you can keep the business competitive and consistently profitable, while helping to reduce a large portion of the development risks.
